StarLeaf provides best of breed equipment that is easier to utilise across multiple conferencing toolsets and at the same time comes with Starleaf conferencing facilities for an organisation to use (if they don't have Webex, Blue Jeans, Zoom, MS Teams etc)

Polycom provides best of breed equipment, normally used in an existing environment where no subscription service is required, simply plug in. Configured to operate in conjunction with your existing Conferencing services such as WebEx, Zoom, MS Teams etc assuming the customer has the correct Room licensing - if not this can be added as an additional add-on.

HARDWARE / INSTALLATION / SUPPORT / OPTIONS

Our technical team will make sure you have a quality finish in both meeting and boardrooms with various size options of screens and speakers to suit your furniture.

Installation to be quoted before project commences.
